

## Senior Acoustic Consultant

PKA Acoustic Consulting established in 1968 is one of the most experienced acoustic consulting firms in Australia and are seeking an acoustic consultant to join the existing team based in Artarmon

The company is involved in a diverse range of areas including architectural, auditorium design industrial, building services and environmental acoustics. Duties will include field measurements, analysis, formulation of noise control solutions, preparation of reports and dealing directly with clients. The job calls for a degree of autonomy within the projects whilst having access to the experience within the firm.

The successful applicant will have the following skills and attributes:

- Minimum five years professional experience in an acoustic consulting role in the building industry
- Tertiary qualifications in engineering, science or similar.
- Excellent report writing skills
- Strong verbal communication skills
- Computer literacy
- Member status of the Australian Acoustic Society
- Proficiency in SoundPlan and EASE or similar would be an advantage

Remuneration will be commensurate with the qualifications and experience of the applicant.
