

Australian Acoustical Society

A.C.N. 000 712 658
NEW SOUTH WALES DIVISION

TECHNICAL MEETING

Aircraft noise measurements can be fun

- Date:** Wednesday 3rd August 2011
- Venue:** National Acoustics Laboratories
- Time:** 6:30 pm
- Speaker:** Steven Cooper, The Acoustic Group

Steven is an acoustical consulting engineer working in the industry for over 30 years and has a significant degree of experience in terms of noise assessment of helicopters and military jet operations. Steven has been a member of the Australian Aircraft Standards committee for nearly 30 years and has represented Australia on the Acoustics Committee of the Helicopter Association international for some 20 years.

Steven has previously presented papers at the AAS conference in Christchurch and the ICA in relation to his research work of military aircraft noise and issues in relation to the development of Noise Power Distance curves which are the fundamental database for the Integrated Noise Model. He will discuss acoustic issues that have arisen during his research work and provide an insight to some of those acoustic issues which do not normally occur in an acoustical consulting practice.

“Anyone” is welcome to attend refreshments will be provided

RSVP FOR CATERING PURPOSES BY

Monday 1st August 2011 to Tracy Gowen by email
