- The Speaker:** David Anderson
- RSVP:** Monday 6th December 2004

rsaacoustics@optusnet.com.au

or if no email phone Rodney Stevens on 95427979

Enjoy a sumptuous breakfast at the Atrium (the breakfast is partly subsidised by AAS) and listen to a topic that will no doubt be very entertaining. Dave’s talk will include an overview of the noise specialist role at RailCorp with details of some recent technical advances in noise control and management.

The talk will be a light hearted review of life at RailCorp and a comparison with life on the other side of the fence as an acoustic consultant.

Last year we had an excellent turnout so please make the effort to support the AAS and meet your peers. Please invite work colleagues even if they are not yet members. Hopefully we can encourage more to join and enjoy the benefits.
