Pyrotek noise control hear the latest developments

Pyrotek is a manufacturer and distributor of quality noise, thermal and fire-insulating products for transport, building, marine, and industrial applications, which are tested and approved to the latest international standards. The global expansion has helped the business to innovate and add new development products to its range, Bruce Hermes, Commercial Specification Manager will present an overview of all the latest product developments from Pyrotek.

getzner engineering a quiet future latest european technology

Founded in 1969 Getzner Werkstoffe is one of the leading specialists in vibration protection. Solutions from Getzner are used in the rail, construction and industry sectors to reduce vibrations and noise, improve the service life of bedded components and minimise the need for maintenance and repairs on tracks, vehicles, structures and machines. The elastic bearings are based on the materials Sylomer® and Sylodyn®, both of which were developed and manufactured in Buers, Austria.
