

Acoustic Consultant – Associate Level (Melbourne)

If you are inspired by sound then Jacobs would like to hear from you.

If you are passionate about acoustics and want to grow as a professional acoustic consultant working on great projects then you should apply for this position. We currently have an excellent opportunity within our Acoustics Team in Melbourne for an engaged senior professional acoustic consultant with 10 or more years of experience.

The successful applicant will be exposed to unlimited opportunities. They will be joining an engaged and committed team of professionals working on diverse and prestigious projects. Our projects break new grounds and open up new possibilities.

At approximately \$13 billion in revenue, Jacobs is one of the world's largest and most diverse providers of technical, professional, and construction services, including all aspects of architecture, engineering and construction, operations and maintenance, as well as scientific and environmental consulting. We serve a broad range of companies and organizations, including industrial, commercial, and government clients across multiple markets and geographies. Our global network includes approximately 66,000 employees in more than 250 offices in more than 30 countries, with operations in North America, South America, Europe, the Middle East, India, Australia, Africa, and Asia.

With a strong pipeline of work in Victoria, we are looking for a **highly motivated and experienced Acoustic consultant** to join our Jacobs' team based in Melbourne. The successful candidate will play a key role contributing to the **growth and successful performance of our Acoustics practice in Victoria and nationally.**

As a contributor to business growth, we require someone who possesses exceptional communication and project delivery skills to be able to **drive business development initiatives and build strong relationships with key clients.** The role will require a candidate who can deliver **exceptional technical delivery** for our clients, a proven ability to manage projects, lead teams, establish and maintain client relationships and develop new business opportunities in the field of Acoustics for both environmental and architectural projects.

This is an excellent opportunity to work for a highly respected global organisation as part of an experienced team. Jacobs promotes a safe workplace and healthy work/life balance for all employees. If you are a focused, driven professional who takes pride in their work and is looking for an opportunity to work within a multi-disciplinary environment on complex projects then please apply.
