

## Senior Acoustic Engineer

Cogent Acoustics is a 100% Australian owned, Melbourne based acoustic engineering consulting firm. We pride ourselves on the highest quality acoustic engineering delivered with exemplary client service. We are fortunate to hold a unique advantageous position in the industry which has led to commercial success in many areas.

Since our launch at the beginning of 2016, we have quickly become established in the Victorian construction industry. Due to the continuing growth of our business, we are seeking a mid to senior level acoustic consultant with 5 to 15 years of experience to help lead our team into the future.

This is an opportunity for an ambitious person to join us in a positive, energetic workplace, with significant prospects for career growth as our business continues to expand.

The ideal candidate will have:

- Excellent verbal and written communication skills.
- Robust technical knowledge spanning a broad range of acoustical areas including building acoustics, environmental noise, industrial noise, and vibration.
- Familiarity with the Building Code of Australia and Victorian environmental noise policies, regulations and guidelines.
- Competency in the use of acoustic modelling software including SoundPLAN, EASE, and Insul.
- The ability to independently manage and complete acoustic consulting projects to a high standard and within deadlines.
- Willingness and ability to mentor junior staff.
- Ambition to lead.

Our team is our most important asset and we offer company benefits that are second to none, including:

- Great office culture and modern work environment.
- Regular team building and CPD opportunities.
- Flexible working arrangements.
- Performance bonuses.
- Potential to fast track career.

A highly competitive salary package will be offered to the right candidate.

To confidentially apply, please contact:
