

## Senior Acoustic Consultant - Melbourne

### The Company

Since 1973, Vipac has been delivering engineering solutions worldwide that foster innovation, transform skylines and enhance environmental sustainability.

From advising on the world's tallest building to a collaboration with NASA, Vipac's service portfolio is as diverse as its workforce with over 150 trained specialists in six offices.

### The Opportunity

Vipac is looking for an experienced Senior Acoustic Consultant with a relevant degree, a proven track record in delivering Environmental and Building Acoustics projects, and the desire and commitment to develop business in this area.

The successful applicant must be able to integrate into and support the existing team by contributing to the acoustic input, predictions, modelling and report writing on a range of projects. Importantly, you will possess enthusiasm and a willingness to learn and grow as a professional Senior Acoustic Consultant.

We're looking for candidates with a proven ability to deliver client expectations to budget and timescale, personal organization, communication skills and client liaison experience.

### Responsibilities

- Manage projects
- Undertake site/building noise assessments using appropriate instrumentation and methods, including modelling software
- Write reports and make recommendations based on site/building noise assessments
- Undertake design of acoustic solutions for sites/buildings.

### Experience

- Minimum 3 years of experience in a similar role
- Project management and report writing
- Operation of acoustic instrumentation and measurement procedures
- Assessment of building, environmental, and industrial noise
- Experience using noise modelling software, e.g. SoundPLAN, Cadna, EASE, or similar software.

### Qualifications and/or Specific Skills

- Degree in Science, Engineering, or related discipline
- Member of the UK IOA or AAS (or eligible for membership)
- A full driver's license is essential
- You must have excellent spoken and written communication skills (English)
- Must be eligible to work in Australia.

### The Rewards

- A competitive salary
- Opportunity to work on a diverse range of interesting and challenging projects
- Career growth opportunities
- Excellent professional development opportunities within an industry leading firm.

*"Vipac provided practical solutions for the stringent requirements of the Darwin Convention & Exhibition Centre. AE Smith have continued to use Vipac since the successful completion of this project due to their high degree of expertise."*
