

## Acoustic Engineer / Senior Acoustic Engineer

### The Role

AECOM's Buildings & Places Business has an exciting opportunity for an experienced Acoustic Engineer to join our well respected Practice in Brisbane.

As part of a large, multi-disciplinary organisation, this role will not only offer you the opportunity to work alongside our team of acoustic specialists, both locally and across ANZ on standalone Acoustics projects, but will also enable you to collaborate with the wider AECOM network, including Mechanical, Environmental and Transportation disciplines, giving you a broad exposure to a multitude of world-class projects.

As an Acoustic Engineer in Brisbane, you will utilise your strong technical skills and knowledge to conduct and deliver a range of onsite noise and vibration surveys, computer models and impact assessment and technical reports for a range of clients. As an experienced practitioner, you will provide a high level of service for all clients and contribute to identifying and implementing new methodologies to advance the opportunities of our team. You will be given the opportunity to lead and run your own projects, with support to gain more experience, responsibility and client contact.

### About You

- 5+ years' experience relevant professional experience;
- Experience working within a consulting environment will be highly regarded;
- Experience leading and running acoustic engineering components of major projects.

This role is suited to a highly driven professional who is looking to further develop their skills in the field and grow their career.

### Preferred Qualifications

- Tertiary Qualification (Bachelor of Engineering or Science) - Required
- CPEng / RPEQ (Or working towards) – Advantageous

### Benefits at AECOM
