

Government of Western Australia Department of Water and Environmental Regulation

ABOUT THE ROLE

The Department of Water and Environmental Regulation (DWER) has an exciting opportunity for an Environmental Officer Noise Regulation to join our vibrant team. We are offering a permanent full-time position located in Perth but will eventually move to our new Joondalup office. The position would suit a proactive, organised and self-motivated individual.

The Environmental Officer Noise Regulation position is primarily responsible for providing quality specialist environmental noise services and technical advice. The position facilitates the Department's administration of Western Australia's environmental noise legislation.

WHY WORK FOR US?

The DWER provides a working environment that promotes and supports professional development, work/life balance and wellness for all its employees through:

- competitive salary plus 9.5% employer superannuation contribution and access to salary packaging options;
- generous working conditions under the Public Service Award;
- flexible working arrangements;
- opportunity to be involved with exciting, interesting and meaningful work;
- access to an assortment of personal and professional development and training opportunities;
- leading wellness program promoting a healthy work / life balance with funded flu vaccinations and employee assistance programs to name but a few; and
- an energetic social club offering networking opportunities and a strong social environment.

The DWER embraces diversity and is committed to ensuring its workforce is reflective of our community. We welcome job applications from a diverse range of people that will enable us to deliver our services in a way that best meets the different needs of all Western Australians.

ABOUT THE DEPARTMENT OF WATER AND ENVIRONMENTAL REGULATION

The DWER is a dynamic agency and is committed to supporting Western Australia's community, economy and environment by managing and regulating the state's environment and water resources.

The department is responsible for all environmental and water regulation, creating a 'one stop shop' for industry and developers and a greater opportunity for streamlining and simplifying regulation.
